

## Goa Based La Casa Siolim Uses PAX and Reaps Many Benefits

### La Casa Siolim Goa

“Though we are a five year old property, we decided to adopt hotel management software just six months ago, and our first and only choice was PAX as it comes from IDS Next. We did not even consider any other software for our property”

**Mr. Avinder Sunny Chopra**  
Director, La Casa Siolim

### ► About La Casa Siolim

Located in Siolim, North Goa, [La Casa Siolim](#) is a value for money boutique resort with 25 elegant rooms. This beautiful property with an attractive Portuguese façade offers comfortable accommodation with modest homely services.

To grow room occupancy and simplify their hotel operations, La Casa Siolim decided to adopt hotel management software and its search ended with PAX, the newest software offering by IDS Next. The property has been using PAX for the last six months.

### ► About PAX

PAX is compact yet powerful and economically priced software designed for the needs of small and budget hotels, villas, gated communities, service apartments, limited service properties and others.

### ► PAX Modules

**Front Office Management & Housekeeping**

**Point of Sale**

**Accounts Receivables**

**Telephone Management**

## Optional Interfaces

Tally Accounting System

Door Lock

EPABX

Credit Card (Plutus)

Document Scanner

Web Camera

The software is made powerful by a host of reports that can help the management of the hotel monitor operations from near and afar.

### ► Benefits of PAX to La Casa Siolim

PAX is convenient and self-installable hotel management software and also capable of introducing efficiency in small and budget hotel operations. The software is user-friendly and the staffs of La Casa Siolim find it extremely easy to work on. This means, La Casa Siolim did not have to invest time and revenue on employee training. PAX is also low on hardware and keeps this recurring cost at a minimum.

#### Key features and business Benefits of PAX:

- Light and easy to install – makes sure that the hotel goes live quickly
- Simple wizard-based set-up – helps in deploying the product faster
- Automated patch management – lets the user know when there is an application update available and It keeps the product up-to-date
- Automated e-mail alerts – on hotels current position to the management
- Define different rates in advance, access multiple rates for corporate /seasonal /Travel agents rates. Avoid last minute confusion on tariff offered to guest
- Audit trail for all transactions which makes it easy to monitor your hotels financials
- Fully automatic night audit and roll over process. No need of manual intervention
- Ensure increased room sales with connectivity to traditional & non-traditional online travel agents like Yatra, TravelGuru, Airtel, Just Dial & more to come

## ► How PAX Benefits La Casa Siolim

“This is the first time we are using a hotel management software at our property and we all are impressed with its usefulness. All vital information pertaining to our hotel’s operation is available at our finger tips. Time consuming activities like tracking of bills, accounts, data compilation and analysis have been streamlined minus error,” said Mr. Avinder Sunny Chopra, Director at La Casa Siolim. The most important benefit for La Casa Siolim is that the management is now able to analyze a host of data and effortlessly comes up with strategic decisions.

“Earlier, we used to operate manually and used to give hand-written bills to our customers which did not look professional. But now customers like it when we give them printed bills. They can clearly understand the bill break-up that includes tax and all. Additionally, we are able spend more time with our guests as PAX automates the entire operations with ease and frees our staff from unproductive data entry ”
