# IDS Next

**T**echnology is evolving rapidly and hoteliers need more solutions to keep up with their customers. With a strong vision of connecting with developing technology and added spirit of innovation, IDS Next has been expanding its solutions to make the Hotel ERP more comprehensive and empowering.

Bangalore based, IDS Next is a global software provider offering world-class Hotel ERP and a host of value-added solutions to hospitality and leisure industries. With 27 years of unparalleled domain proficiency, the company has gained the trust of over 3500 hotels across market segments in 40 countries of Oceania, South East Asia, South Asia, Middle East and Africa. They majorly cater to the hospitality industry that cover large and independent hotels, chain hotels, business hotels, resorts, service and limited service apartments, clubs and restaurants.

## Strategies to Combat Competition:

With a seamless connect to a host of other solutions, IDS Next stands ahead of competition through its distinctive range of Hotel ERP. The only PA DSS certified hospitality software provider in Asia, IDS Next's Hotel ERP is empowered with a distribution solution, business intelligence, online reputation management, revenue management solution and last-minute room booking application.

## Solutions & Services:

IDS Next products are designed to help hoteliers optimize the use of manpower, control costs, improve profits and enhance guest satisfaction. In addition, the brand offers 24/7 technical support center including many state-of-the-art facilities like centralized data integration, integrated front office and back office modules for reduced total cost of ownership, comprehensive reporting tool and robust in-built guest history feature. The ERP also covers Front

Office Management, Accounts Receivable, Point of Sale, Food and Beverage Costing, Financial Management, Sales & Marketing and other foremost innovative yet essential models.

Their four versions of Hotel ERPs are FortuneNEXT 6i Enterprise, FortuneNEXT 6i Professional, FortuneNEXT 6i Express and FortuneNEXT 6i Genie. The ERP is also incorporated with foremost mediums like large distribution channel, Web Booking Engine, Online Reputation Management, Revenue Management and Business Intelligence solutions. They have also developed PAX for small hotel properties and a user-friendly, FortuneNEXT 6i R&B for restaurants and FortuneNEXT 6i Club Management system.

Adding to these, FortuneNEXT Care, FortuneNEXTi Alert, Envy Check-in and Envy Dine come under their guest experience enhancement solutions.

## Roadmap Ahead:

IDS Next is focused on developing mobile and cloud solutions to excel in its near future. [CR](#)
